Experience:-

- 1 year in Infonix Service Technology(22-Apr-2022 to 28-Apr-2023).

Skills

- | | | | |
|--------|-------|--------------|------------------|
| · HTML | · PHP | · JavaScript | · Graphic Design |
| · CSS | · SQL | · VueJS | · ReactJS |

Projects Description:-

- All pdf files are graphic design files.
- In .../home.html, I've created a professional finder course app, in this we find courses based on technologies & subscription.
- In .../homes.html, I've created a scholarship finder app, in this we'll find courses based on education level & income range.
- In .../ab.html, the css property will change on clicking, created using VueJS.
- In .../abcd.html, the first item will take double width & height of other items using grid-template-areas property.
- In .../xyz.html, the first item will take double width of other items.
- In .../color.html, there is a remaining space in main axis, and the items are move to the next line, using grid-template-columns property.
