## Skills

- |        |       |              |                  |
|--------|-------|--------------|------------------|
| · HTML | - PHP | - JavaScript | - Graphic Design |
| · CSS  | - SQL | - VueJS      | - ReactJS        |

## Projects Description:-

- All pdf files are graphic design files.
- In .../home.html, I've created a professional finder course app, in this we find courses based on technologies & subscription.
- In .../homes.html, I've created a scholarship finder app, in this we'll find courses based on education level & income range.
- In .../ab.html, the css property will change on clicking, created using VueJS.
- In .../abcd.html, the first item will take double width & height of other items using grid-template-areas property.
- In .../xyz.html, the first item will take double width of other items.
- In .../color.html, there is a remaining space in main axis, and the items are move to the next line, using grid-template-columns property.
